

REZNOR MAKE-UP AIR / HEATING UNITS

For Heat only or Heat/Cool Split Systems.

RZ-MUA REQ 0507

To accurately quote a make-up air/heating unit, please provide the following information.

Applies to Models: ADF(H), AHCA, AHDA, CAUA (w/belt drive & mixing box), DFC(H)(V), DV, PCD(H)(V), PDH, PGBL, RDF, RDH (Preeva),(H)(C)RGB, (H)RPB, RGBL, RPBL, RPDBL, SDH (Preeva) SCE, SDH, SSCBL, SSCDBL,(H)XE. Does not apply to MAPS units, models RCA, RDA, RECA, REDA, RDCA & RDDA.

JOB NAME: _____

LOCATION: (to calculate freight)_____

If replacing an existing Reznor unit, provide Model #, Serial#, Wiring diagram # (WD#xxxxxx) CFM & ESP plus the following:

1. Natural Gas____ Propane_____ Other_____
 2. Unit location: Indoor____ Outdoor__ Rooftop__ Pad Mounted____
 3. What type of unit is needed? Direct fired____ Indirect fired____ ? ____
 4. Unit configuration: Vertical____ Horizontal_____
 5. Supply air discharge direction: Horizontal_____ Vertical____ Other_____
 6. Air Control (Select one): 100% Outside air_____ 100% Return air _____
Outside & Return air Dampers*_____ Dampers not required_____
- *Refer to the "AR" options that are listed in the appropriate Reznor catalog or price sheet. There may be over a dozen different choices.
7. Gas Control (Select one): Single stage (100% R/A Only)_____ Two-stage____ Electronic Modulation____ Other_____
- Refer to the "AG" options that are listed in the appropriate Reznor catalog or price sheet.
8. Line Voltage_____
 9. CFM required_____
 10. ESP required (External Static Pressure)_____
 11. Filters____ No filters____ (Filter type available may depend on CFM)
 12. Models SDH, SCE & SSCBL only: Vent direction: Vertical__ Horiz.____
 13. Entering air temps for DX,CW,HWorSteam coils.(Except CAUA)___DB ___WB
 14. Entering air temps for units requiring an Energy Recovery Wheel. _____
 15. Number 13 & 14: We will provide Coil or Heat wheel performance data with the quote. This data is required by the Mfg and must be provided with the order. We will not provide a quote without this information.
 16. Other special options? (Firestat, Freezestat, SS Heat X, Disconnect, Remote console etc)
